DELUXE LONG HAUL TRUCK SPILL KIT

The Deluxe Long Haul Truck Spill Kit can be used as a truck-mounted container under semi-trucks/trailers, or as a spill response unit in almost any location when mounted to the wall. Mounts easily to trailer undercarriage or walls utilizing molded or slotted holes for multiple mounting options. Contents are safely contained in the lockable ENPAC® Poly-Edge™ which has a durable weather and water resistant gasket seal that keeps all stored items secure and dry. This Deluxe Kit also includes an ENPAC® 100 gallon Prowler™ Pop-Up Pool - for immediate spill containment to the widest range of chemicals - and a complete Leak Repair Kit.

Leak Repair Kit can be used to:

- Plug leaking gasoline
- Stop leaking diesel or biofuel tanks
- Prevent rain damage in freight trailers

ECONO LONG HAUL TRUCK SPILL KIT

A Spill Kit as mobile as you are! Your quick and convenient travel pal for any spill while you're on the move! Keep it handy in your cab or small enough to store in a toolbox. Includes many of the same items featured in the Long Haul Truck Deluxe.

TRAUMA-SORB™ O.R. MAT

The **Trauma-Sorb™** operating room mat safely absorbs blood and other body fluids in your operating room, emergency room, or wherever large spills may occur. The disposable mats absorb solutions perfect for:

- Saline
- Betadine
- Sterilants
- Blood

Mats also help to avoid slipping on wet floors. Facilitates faster operating room clean-up and turn-around.

TRAUMA-SORB™ SPILL KITS

Speedy Duffel™ Spill Kit
20" x 9" x 19"

Fast Pack™ Spill Kit
8" x 17"

Compact and portable, **Trauma-Sorb™** heavyweight absorbent kits protect medical equipment, staff, and the environment in emergency response conditions. Provides absorption protection for saline, sterilants, blood and other body fluids. Convenient nylon handles and straps provide easy transport and response. Refills available.

IMBIBER BEADS® IMBICATOR®

THE WORLD'S ONLY ENGINEERED ABSORBENT POLYMER FOR HAZARDOUS CHEMICAL SPILLS.

Polypropylene, kitty litter, and solidification agents move over! Imbiber Beads® simply work better. They "capture and contain" a broad range of liquid organics including gasoline, diesel and jet fuels, transformer oils, chlorinated solvents, and many more hazardous chemicals. Imbiber Beads® eliminate "free liquids" and the secondary contamination associated with surface-coating sorbents such as polypropylene and kitty litter.

Imbiber Beads® also "blow away" the competition in another critical area. The elimination of free liquids means up to 99% vapor reduction and up to 600% reduction in the rate of volatile vapor release over polypropylene. It is the vapors that support combustion and the vapors that are toxic when inhaled!

Imbiber Beads® are the **ONLY** color-change-indicating product on the market.

They change from white, to pink, to red...

...As the concentration of organic liquid increases. They're unaffected by water!

Imbiber Beads® is a Registered Trade Mark of Imbibitive Technologies Corporation.

TRAUMA-SORB™ OPERATING ROOM MAT

Standard Size - 32" x 72" / 81 cm x 183 cm
Part #: ENP FGM-003272
